Unchanging Patriotism and the Unfailing Gratitude of the Irish Race Nobly Illustrated.

The Address of Sir John Grey and the Lord Mayor's Response-The Great Procession.

NEW ERA IN THE HISTORY OF MANKIND

The 8th of August, 1864, will long be remembered in Ireland, and particularly in the metropolis of Ireland, which witnessed a sight that has never been equaled. Although seventeen years had elapsed since the death of the liberator, it was not long after that the idea of a national monument, to commemorate his great achievements, was broached

.During the seventeen years that elapsed since the death of O'Connell, the English press asserted with more or less elaboration of argument and pretense of proof that the desire manifested by the Irish people for a repeal of the union was but a passing erthusiasm with which a clever agitator had inspired them-a delusion which could not outlive his time-a folly which they had outgrown as soon as it had ceased to be recommended to them by the persuasive tones of the only man who could ever have induced them to be lieve in it.

These assertions served as a sort of excuse for the maintenance in Ireland of a domination against which almost the entire population protested; but their chief purpose was to deceive foreign nations as to the real depth and intensity of national feeling. They were utterly false, as was proven by the hundreds of thousands of visitors who came to Dublin to witness the impressive ceremonies and prove their fidelity to a noble principletheir adherence to the cause and reverence for the memory of a great man who served their country faithfully, though he did not achieve the full measure of success for which he labored.

In the honors paid to the memory of O'Connell, the unchanging patriotism and the unfailing gratitude of the Irish race Before Dunkirk, on Landen's plain, were nobly illustrated. They made of that day a holiday for Ireland. They We're all over Austria, France and Spain ut aside all other things to take part in movement which would show their biding fealty to the Irish cause. The procession, which was one of

trade unions of Dublin which were to participate were assembled at their apces, while around St. Stephen's Green were congregated the deputations from Galway, Limerick, Drogheda, Navan and other cities and towns. At 10:30 the procession was formed, the head of which passed the residence of Daniel O'Connell.

The procession was headed by O'Connell's Body Guard, closely followed by the stonecutters, in whose ranks was drawn the first stone of the intended monument, and the coachmakers, who drew the "triumphal car" in which O'Connell was drawn from Richmond prison in 1844.

Passing from Merrion square, the vast procession wound along into Clare street and Nassau street. At the Bank at Ireland the greatest concourse was assembled, at least 80,000 persons being congregated. Passing by the Exchange the procession passed into Sackville street now O'Connell street). On the river, from Carlisle bridge to the point of the North wall and the Ringsend docks opposite, all the vessels were dressed for

Arriving at the place where the mont ment now stands, the late Sir John Grey read the following address in the pres ence of the Lord Mayor and other promi nent officials: "The people of Ireland meet to-day to honor the man whose matchless genius won emancipation, and whose fearless hand struck off the fetters whereby six millions of his countrymen were held in bondage in their own

Thus shall the noble image of our Tribune ever speak from this platform to the Irish much, and instead of being released, the race, teaching them how liberty may be won-how it may be used with most ad. full fifteen years and an additional six vantage to all-and how best and most securely to maintain and transmit it, unimpaired and untarnished, to posterity.

To this the Lord Mayor replied: "A sorrowing nation mourned, and still mourns. over the grave of him whose matchless services and labors are recognized throughout the civilized world, whose teachings and principles have marked a new era and inscribed a new chapter in the history of mankind,

"Lifting their aspirations toward heav-en, the Irish people take heart to-day, mbling as of old, proclaim to the world that the spirit of the Great Tribune still lives -still animates their earts, and still guides their movements thus presenting a living testimonial to

Mr. Wilson latterly complains of the action of the Government in his case, as a visitor that he would be released soon. The Home Secretary had promised as Government had made him complete the months as above stated. Mr. Wilson is very much concerned about the men who will be left in jail after his release. These poor men are not in as good health or spirits as Mr. Wilson is, and a special effort should be made to have them all released at the same time, as the effect of

their comrade being gone would perhaps be the means of adding melancholy to their already prolonged sufferings.

The committee having considered this report, decided that the Home Secretary should be written to and asked his intentions as to the remaining prisoners now in Portland. If his reply is not satisfac-tory, a vigorous agitation will be comnenced for the purpose of effecting their
